The screenshot displays the 'Manage Kategori' interface in AdminLTE. The left sidebar contains navigation links for Pages, Dashboard, Kategori (selected), Account Settings, Profile, Change Password, Multi Level, and Labels. The main content area shows a table with columns: Kategori Id, Kategori Kode, Kategori Nama, Created At, Updated At, and Action. The table lists six categories, with the first one (Id: 4, Kode: LL, Nama: Lain-lain) being the target of a deletion action. A confirmation dialog box is overlaid on the screen, asking 'Apakah anda yakin akan menghapus item ini?' (Are you sure you want to delete this item?). The dialog has 'OK' and 'Cancel' buttons. Below the dialog, the table shows five entries, and a 'Tambah Kategori' button is visible at the bottom.
